Dear Sir/Madam,

I am writing to express my interest and motivation to carry out my summer internship in your company. My name is Janani Chakkaradhari, an electric and ardent Indian woman. I am currently studying Masters (Information Technology for Business Intelligence) at Université Libre de Bruxelles and I have completed a Bachelor's Degree in Computer Science and Engineering at Adhiparasakthi College of Engineering affiliated to Anna University, India.

I am looking to acquire solid knowledge on practical aspects, application areas of data warehousing, supporting database technologies and the languages and models for the representation of data. I would also like to become familiar with the real time challenges of how to integrate Decision Support Systems (DSS) with various business intelligence techniques to support related decision problem solving.

My previous working experience as a Programmer Analysts for Excelacom Technologies has provided with me a strong base of communication knowledge to develop and work on several technologies, get a real time experience on transactional databases and understand the associated complexities with respect to business intelligence. Moreover, this helped me to further develop my interest in learning towards Online Analytical Processing (OLAP), Data Warehousing and the Business Intelligence.

Currently in my Masters' I am taking extensive courses on the concepts of Data Warehouses, Business Process Modeling, Database Systems and Advanced Databases. I have strong knowledge on these topics. Consequently, I believe that I would be an asset to your innovative environment. This internship would provide me with the ideal opportunity to assist at your esteemed concern and to expand my research skills.

I attach my CV containing additional details about my experience and skills. I can be available for an interview any time at your convenience.

Thank you for your consideration.

Yours Sincerely,

Janani Chakkaradhari

Student – Master in Information Technology for Business Intelligence (IT4BI)
